CORPORATE GOVERNANCE PLAN

SCHEDULE 7 – DISCLOSURE – CONTINUOUS DISCLOSURE

1. The Company's Obligation of Disclosure

(a) Compliance

As a listed entity, the Company must comply with certain continuous disclosure obligations imposed by the *Corporations Act* and the ASX Listing Rules. Chapter 3 of the ASX Listing Rules requires the Company to provide the ASX with immediate notice of certain material information.

The general disclosure rule imposed on the Company is contained in clauses 3.1 and 3.1A of the ASX Listing Rules:

"3.1 Once an entity is or becomes aware of any information concerning it that a reasonable person would expect to have a material effect on the price or value of the entity's securities, the entity must immediately tell ASX that information.

3.1A Listing Rule 3.1 does not apply to particular information while each of the following are satisfied:

3.1A.1 A reasonable person would not expect the information to be disclosed

3.1A.2 The information is confidential and ASX has not formed the view that the information has ceased to be confidential

3.1A.3 One or more of the following applies

- It would be a breach of a law to disclose the information.*
- The information concerns an incomplete proposal or negotiation.*
- The information comprises matters of supposition or is insufficiently definite to warrant disclosure.*
- The information is generated for the internal management purposes of the entity.*
- The information is a trade secret."*

There is also the "false market"/"rumours" disclosure rule in clause 3.1B as follows:

"3.1B If ASX considers that there is or is likely to be a false market in an entity's securities and asks the entity to give it information to correct or prevent a false market, the entity must give ASX the information needed to correct or prevent the false market."

CORPORATE GOVERNANCE PLAN

The provisions of Chapter 3 are reinforced by Chapter 6CA of the *Corporations Act*. In particular, section 674(2) provides that:

"If:

- (a) *[provisions of the listing rules of a listing market in relation to an entity require an entity to notify the market operator of information about specified events or matters as they arise for the purpose of the operator making that information available to participants in the market]; and*
- (b) *the entity has information that those provisions require the entity to notify to the market operator; and*
- (c) *that information:*
 - (i) *is not generally available; and*
 - (ii) *is information that a reasonable person would expect, if it were generally available, to have a material effect on the price or value of securities of the entity;*

the entity must notify the market operator of that information in accordance with those provisions."

It is therefore essential that directors acquaint themselves not only with their personal obligations of disclosure, but also the disclosure obligations imposed on the Company.

(b) The Disclosure Obligation

Under the provisions of Listing Rule 3.1, the Company is required to immediately notify the ASX of any information concerning the Company of which it is, or becomes, aware, and which a reasonable person would expect to have a material effect on the price and value of the Company shares.

(i) When is the Company aware of information

The Listing Rules provide that the Company is aware of information if a Director or executive officer has, or ought reasonably to have, come into possession of the information in the course of the performance of their duties as a Director or executive officer of the Company.

An "executive officer" of the Company means a person who is concerned in, or takes part in, management of the Company. A person can be an executive officer regardless of his or her designation, and irrespective of whether or not the person is a Director.

(ii) What information has a material effect on price?

The effect of information on the price or value of the Company shares is to be judged by the expectations of a "reasonable person". A reasonable person would expect information to have a material effect on the price or value of the Company shares if the information would, or would be likely to, influence investors who commonly invest in shares in deciding whether or not to deal in the Company shares.

The Company and each director should be aware of ASX policy with respect to the disclosure of material information relating to the:

- financing arrangements of the Company; and
- existence and terms of any finance arrangements that may be in place in relation to director's shareholdings (for example margin loans).

CORPORATE GOVERNANCE PLAN

Finance Arrangements

Where the Company has in place or enters into new material financing arrangements or alters existing material financing arrangements which include terms that may be activated upon the occurrence of certain events (particularly those beyond the control of the Company, such as market events) disclosure may be required under Listing Rule 3.1 at the time any such term is activated or becomes likely to be activated.

The disclosure required may include the nature and terms of the arrangements, the trigger event, any other material information such as any impact that triggering of the term may have on the Company's relationship with its bankers, or financial position or financial performance. It may also be appropriate in some circumstances for the Company to request a trading halt if the Company is unable to immediately release the information.

Unless the exceptions in the Listing Rule 3.1 apply to the terms of the Company's material financial arrangements, the Company should disclose to the ASX, upon entering into the arrangements, the nature and terms of the arrangements, the trigger event, any other material information such as any impact that triggering of the term may have on the Company's relationship with its bankers, or financial position or financial performance.

Margin Loans

Listing Rule 3.19A and 3.19B require the Company to disclose the notifiable interests of a director within five business days of the appointment or resignation of the director or a change to the notifiable interests occurring. Information about shareholders and their shareholdings can be material under Listing Rule 3.1 and require immediate disclosure.

Where a director has entered into a margin loan or similar funding arrangements for a material number of securities, Listing Rule 3.1 in appropriate circumstances, may operate to require the Company to disclose the key terms of the arrangements, including the number of securities involved, the trigger points, any right of the lender to sell unilaterally and any other material details. Whether a margin loan arrangement is material is a matter which the Company must decide having regard to the nature of its operations and the particular circumstances of the Company.

Listing Rule 3.1B applies where the ASX considers that there is or is likely to be a false market, and in such circumstances the Company must disclose information necessary to correct or prevent a false market. This requirement may arise even though the Company is not aware of any information that would be required to be disclosed under Listing Rule 3.1.

A Director must disclose to the Company any financial arrangements or margin loan the Director has entered into in respect of any securities which the Director holds in the Company. Such disclosure by the Director should be on entering into the arrangements and should include key terms of the arrangements, including the number of securities involved, the trigger points, any right of the lender to sell unilaterally and any other material details.

(c) Ramifications of Failing to Comply

The ramifications of failing to comply with the continuous disclosure obligations under Listing Rule 3.1 are extremely serious, and may result in the following actions being taken:

(i) Removal from the ASX

The ASX may at any time remove an entity from the Official List of the ASX if the entity breaks a Listing Rule.

(ii) Criminal Liability

Under the *Corporations Act*, a failure to make a disclosure under Listing Rule 3.1, intentionally or recklessly, amounts to a criminal offence, and may result in a fine of \$100,000 for a corporation.

In addition, individuals who are "involved" in the contravention (who would include officers or advisers who aid, abet, counsel, procure or are knowingly concerned in the contravention) are also liable. The maximum penalty for individuals is \$20,000, or imprisonment for five years, or both.

A negligent failure to make a disclosure under Listing Rule 3.1 is a contravention of the *Corporations Act*, but will not amount to a criminal offence.

CORPORATE GOVERNANCE PLAN

(iii) Civil Liability

Civil liability arises if the failure to disclose is intentional, reckless or negligent. A person who suffers loss or damage as a result of such failure may recover that loss or damage from the Company, or against “any person involved in the contravention”. This could include the directors or executives officers of the Company.

(d) Exemption from Disclosure

The Listing Rules provide that the Company does not need to disclose information under Listing Rule 3.1A if each of the following is satisfied:

- (i) A reasonable person would not expect the information to be disclosed (Listing Rule 3.1A.1); **and**
- (ii) The information is confidential (Listing Rule 3.1A.2); **and**
- (iii) One or more of the following applies (Listing Rule 3.1A.3)
 - (A) It would be a breach of a law to disclose the information;
 - (B) The information concerns an incomplete proposal or negotiation;
 - (C) The information comprises matters of supposition, or is insufficiently definite to warrant disclosure;
 - (D) The information is generated for internal management purposes of the Company; or
 - (E) The information is a trade secret.

It must be noted that the above exemption from the requirement to make disclosure only operates while all three elements are satisfied. If any of the requirements cease to be satisfied, the entity must disclose the information immediately.

By way of example, if information that has not been disclosed by relying on the exemption becomes known in some way to participants in the market, then it **must** be given to the ASX for release to the market, as it would no longer satisfy the confidentiality requirement. It does not matter how the matter became known in the market.

Looking at each of the three elements that must be established for information to be exempt from disclosure:

(i) A reasonable person would not expect the information to be disclosed (Listing Rule 3.1A.1)

A reasonable person would not expect information to be disclosed if the result would be to cause unreasonable prejudice to the entity. Similarly, a reasonable person would not expect disclosures of an inordinate amount of detail.

(ii) Confidentiality (Listing Rule 3.1A.2)

Listing Rule 3.1A.2 requires that the information that is not to be disclosed be confidential. “Confidential” in this context has the sense of secret, and generally implies control by the Company of the use that can be made of the information.

The mere fact that a confidentiality agreement has been entered into will not automatically satisfy this element. Confidential means that no one in possession of the information is entitled to trade in the Company’s shares. Unusual activity in the Company’s shares may suggest that the information is no longer confidential.

The ASX accepts that confidentiality is not breached if information is given to the Company’s advisers, a person with whom the Company is negotiating, or other regulatory authorities, if it is given on a basis which restricts its use to the stated purpose.

(iii) One of the Elements in Listing Rule 3.1A.3

One of the five elements in Listing Rule 3.1A.3 must also be established. These elements are:

- (A) It would be a breach of the law to disclose the information;
- (B) The information concerns an incomplete proposal or negotiation;
- (C) The information comprises matters of supposition, or is insufficiently definite to warrant disclosure;
- (D) The information is generated for internal management purposes of the Company; or
- (E) The information is a trade secret.

CORPORATE GOVERNANCE PLAN

(e) Applying the Exemption in Practice

The exemption from disclosure would apply, for example, to information which is confidential, which a reasonable person would not expect to be disclosed, and which falls within any one of the following descriptions:

- (i) Proposed acquisitions or disposals or other commercial arrangements in the process of negotiation;
- (ii) Internal budgets and forecasts;
- (iii) Management accounts;
- (iv) Business plans;
- (v) Internal market intelligence;
- (vi) Information prepared for lenders;
- (vii) Dispute settlement negotiations.

It is possible to foresee, however, matters which are commercially sensitive, the disclosure of which would be **detrimental** to the Company, which may be required to be disclosed because they do not fall within the exemptions. For example:

- (i) A serious claim against the company prior to the commencement of proceedings;
- (ii) An investigation or allegation by a regulatory body (that is not being disputed by the company);
- (iii) Information about a “complete” proposal;
- (iv) Terms of settlement of a dispute which the parties wish to keep confidential, and which is not supported by a Court order of confidentiality;
- (v) Material terms of a trading agreement with a major supplier.

Whether these sorts of matters will fall within any of the exceptions will depend on, and require, an assessment of particular facts.

The Listing Rules and Guidance Note issued by the ASX provide a number of examples of matters that may require disclosure.

(f) ASX Policy

The ASX has issued a Guidance Note in relation to Listing Rule 3.1A. The ASX states that the guidance note is only a guide to ASX practice, and that entities should contact the ASX to discuss their particular circumstances and the application of the Listing Rules. Set out below is a brief summary of some of the more pertinent aspects of the Guidance Note.

(i) Prime Importance

The ASX states that timely disclosure of relevant information is of prime importance to the operation of an efficient market. The fundamental principle under which the Listing Rules operate is that *“timely disclosure must be made of information in which security holders, investors and ASX have a legitimate interest”*.

(ii) Continuous Disclosure Practice

The Listing Rules make it clear that all Listing Rules (including Listing Rule 3.1A) must be complied with in the “spirit” of continuous disclosure. The ASX states that the Listing Rules are not intended to be interpreted in a legalistic or restrictive manner.

CORPORATE GOVERNANCE PLAN

(iii) Market Speculation

The ASX notes that from time to time it may be necessary to respond to speculation in order for the market to remain properly informed.

The ASX states that it does not expect companies to respond to all comments made in the media, or to respond to all market speculation. However, when the comment or speculation becomes reasonably specific, or the market moves in a way that appears to be referable to the comment or speculation, the company should make a statement in response to ensure the market remains properly informed.

It is ASX policy that whatever the information, and however much it might otherwise have been reasonable not to disclose it, the information should be released to the whole market once it becomes known to any part of the market.

(iv) Disclosure of Information to Brokers and Press

Listing Rule 15.7 has the effect that the Company must not release information which is for release to the market to any person (including the media, even on an embargoed

basis) until it has given the information to the ASX, and has received an acknowledgement that the ASX has released it to the market.

With respect to analysts, the ASX states that a company must only disclose public information in answering analysts' questions, or reviewing analysts' draft reports. The ASX states that it is inappropriate for a question to be answered, or a report corrected, if doing so involves providing material information that is not public. The ASX states that when analysts visit the company, care should be taken to ensure that they do not obtain material information that is not public.

(v) Internal Disclosure

Employees will have access to information that is confidential. The employees with such access should be made aware of its confidential nature. The ASX notes that companies should ensure that confidential information does not find its way into "in house" publications.

(g) Analyst and Institutional Briefings

In November 1999 ASIC issued its draft "Heard it on the Grapevine ..." Guidance Paper dealing with the selective disclosure of information to institutional investors and analysts.

This Guidance Paper addresses ASIC's concern that "ordinary" shareholders have a perception that significant information is disclosed by listed companies to analysts and institutions such that they can profit by trading on that information at the expense of the "ordinary" shareholders. ASIC is concerned that this perception could cause "ordinary" shareholders to lose trust in the fairness of the market place.

In this regard, ASIC notes that documents lodged with the ASX are often supplemented with more comprehensive background information provided to analysts and institutions at private briefings.

ASIC specifically identifies the following situations at which there is a risk that selective disclosure may occur:

- (i) Analyst briefings, roadshows and presentations;
- (ii) Individual analyst briefings;
- (iii) Ad hoc communications with analysts and institutions;
- (iv) Reviewing draft analyst reports;
- (v) Informal social events.

CORPORATE GOVERNANCE PLAN

ASIC states that it wishes to see companies exploring ways of improving investor access, both to:

- (i) their ASX announcements; and
- (ii) all significant information provided at private briefings to analysts or institutions (regardless of whether it is viewed as price sensitive)

To this end, ASIC suggests:

- (i) Information disclosed to the ASX be added to the releasing company's web site (following ASX acknowledgement of receipt and release to the market);
- (ii) Non-material information and supplementary material made available to institutions and analysts to be made available to shareholders and the wider investment community on the disclosing company's web site.

ASIC notes that some companies are giving investors access via the internet to live broadcasts of analyst briefings and are posting transcripts of briefings (including questions and answers) on their web sites. ASIC states that it encourages other companies to follow these practices. ASIC in its Paper suggests a number of procedures to ensure that:

- (i) price sensitive material is disclosed to the ASX;
- (ii) briefings do not disclose price sensitive material that has not been released; and
- (iii) information disclosed at private briefings is captured for disclosure to "ordinary investors",

such that there is equal access to information for all investors. Certain of these ASIC suggestions are incorporated in the Disclosure Program set out in (h) below.

ASIC's focus is on giving investors access to all significant information disclosed to analysts or institutions that is not already publicly available, regardless of whether it is considered price sensitive. ASIC considers it is good practice to provide shareholders with access to all significant background information that is provided to analysts and institutions.

(h) Information Disclosure Program Procedures

As will be apparent from the above, it is essential for the Company to design a disclosure system to ensure:

- (i) A breach of Listing Rule 3.1A does not occur; and**
- (ii) That information is made available to all investors equally.**
- (iii) Directors and Executive Officers**

Each of the following personnel (the "Reporting Group") will need to participate in the "continuous disclosure" system, because information in their possession will need to be considered in order to comply with the continuous disclosure obligation:

- (A) the Chairperson
- (B) the Managing Director
- (C) the Company Secretary

(iv) Overseeing and Co-ordinating Disclosure

The Chairperson, Managing Director and Company Secretary will be responsible for:

- (A) ensuring the Company complies with its continuous disclosure obligations;
- (B) overseeing and co-ordinating disclosure of information to the ASX; and
- (C) reviewing information to be provided to analysts, brokers, the media and the public, in order to ensure any market sensitive material has first been released to the ASX.

CORPORATE GOVERNANCE PLAN

(v) Information Collecting Procedures to ensure Listing Rule 3.1A (market sensitive information) is identified

The responsibilities of each member of the Reporting Group are:

- (A) To ensure all notifiable (market sensitive) information is kept confidential within Reporting Group;
- (B) To collect and forward to the other members of the Reporting Group all information which is, or may be required to be disclosed, and consult with those other members if in doubt;
- (C) To make other senior personnel within his or her area of responsibility aware of the Company's disclosure obligations to ensure that all relevant information is provided to him or her in the first place.

(vi) Releasing Information to the ASX

The system for releasing information to the ASX is as follows:

- (A) When any member of the Reporting Group becomes aware of information which he or she believes may need to be disclosed on the basis of the principles described in this document, he or she should immediately contact and give full details to each of the other members of the Reporting Group.
- (B) The Reporting Group will take the following steps in relation to information received by them:
 - Assess whether disclosure is required;
 - Consult legal and other advisers (including the ASX) as necessary;
 - Prepare an announcement for release to the ASX; and
 - Forward the release to the ASX.
- (C) For each meeting of the Board, there should be an agenda item entitled "Continuous Disclosure". In the Minutes of each Board meeting, the Company Secretary should either:
 - record that there was no material known to or brought to the attention of the Reporting Group for disclosure since the previous meeting; or
 - briefly outline material which has been disclosed.

(vii) Company Spokespersons

In order to maintain control over disclosures, the following persons only will be authorised to speak on the Company's behalf to analysts, brokers and institutional investors, and to respond generally to shareholder queries:

- (A) The Chairperson;
- (B) The Managing Director;
- (C) The Company Secretary; and
- (D) Any other person who has been given express prior authority by the Chairperson.

In order to safeguard against inadvertent disclosure of non-public information to brokers, investors, analysts and institutions prior to it being disclosed to the ASX, contact must be made with each member, or each other member, of the Reporting Group prior to making contact with these persons in order to clear the provision of the proposed information to them.

(viii) Authorising Disclosures in Advance

Again, in order to avoid an inadvertent breach of the continuous disclosure obligations, materials to be presented and issues to be discussed at any external presentation must be discussed with each member, or each other member, of the Reporting Group prior to presentation in order to confirm that no non-public material information is being disclosed.

CORPORATE GOVERNANCE PLAN

(ix) Maintenance of Released Material

The Company Secretary will maintain a register of information disclosed to the ASX and also register of information disclosed on the Company web site.

(x) The Company Website

It is intended to implement the inclusion of information released to the ASX on the Company website. In addition, it is intended to add to the website:

- (A) Other materials presented to analysts and institutions; and
- (B) A summary of briefings made to analysts and institutions.

(xi) Handling Rumours, Leaks and Inadvertent Disclosures

It should be noted that any unauthorised leak of information may place the Company in breach of the Listing Rules and could expose persons to allegations of insider trading.

If external contact is made seeking clarification of a rumour in the market place, the enquiry should be referred to the Chairperson or, in his absence, any other member of the Reporting Group. The recommended response to such query is that “the Company does not respond to market rumours”. Consideration will then be given by the Reporting Group as to whether a public announcement is required.

The Reporting Group should be made aware of any unauthorised disclosure of information (even if regarded as non-public sensitive). Consideration will then be given to the need to make an ASX disclosure.

(xii) Reviewing Discussions

In order to ensure no price sensitive material has been inadvertently disclosed, each member of the Reporting Group should be kept apprised of the contents of any substantive contact with analysts, brokers and institutional investors.

(xiii) Draft Financial Statement and Reports

Typically, analysts will seek to obtain Management’s review of draft analyst reports. It is permissible to comment on errors in factual information and underlying assumptions, but comment on price sensitive information should be avoided.

CORPORATE GOVERNANCE PLAN

CORPORATE GOVERNANCE PLAN

SCHEDULE 9 – TRADING POLICY

1. Introduction

- (a) These guidelines set out the policy on the sale and purchase of securities in the Company by its Key Management Personnel.
- (b) Key Management Personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Director (whether executive or otherwise) of that entity.
- (c) The Company has determined that its Key Management Personnel are its Directors and those employees directly reporting to the Managing Director.
- (d) Key Management Personnel are encouraged to be long-term holders of the Company's securities. However, it is important that care is taken in the timing of any purchase or sale of such securities.
- (e) The purpose of these guidelines is to assist Key Management Personnel to avoid conduct known as 'insider trading'. In some respects, the Company's policy extends beyond the strict requirements of the *Corporations Act 2001 (Cth)*.

2. What types of transactions are covered by this policy?

This policy applies to both the sale and purchase of any securities of the Company and its subsidiaries, if any, on issue from time to time.

3. What is insider trading?

3.1 Prohibition

Insider trading is a criminal offence. It may also result in civil liability. In broad terms, a person will be guilty of insider trading if:

- (a) that person possesses information which is not generally available to the market and, if it were generally available to the market, would be likely to have a material effect on the price or value of the Company's securities (ie. information that is 'price sensitive'); and
- (b) that person:
 - (i) Buys or sells securities in the Company; or
 - (ii) Procures someone else to buy or sell securities in the Company; or
 - (iii) Passes on that information to a third party where that person knows, or ought to reasonably know, that the third party would be likely to buy or sell the securities or procure someone else to buy or sell the securities of the Company.

3.2 Examples

To illustrate the prohibition described above, the following are possible examples of price sensitive information which, if made available to the market, may be likely to materially affect the price of the Company's securities:

- (a) The Company considering a major acquisition;
- (b) The threat of major litigation against the Company;
- (c) The Company's revenue and profit or loss results materially exceeding (or falling short of) the market's expectations;
- (d) A material change in debt, liquidity or cash flow;
- (e) A significant new development proposal (e.g. new product or technology);

CORPORATE GOVERNANCE PLAN

- (f) The grant or loss of a major contract;
- (g) A management or business restructuring proposal;
- (h) A share issue proposal;
- (i) An agreement or option to acquire an interest in a mining tenement, or to enter into a joint venture or farm-in or farm-out arrangement in relation to a mining tenement; and
- (j) Significant discoveries, exploration results, or changes in reserve/resource estimates from mining tenements in which the Company has an interest.

3.3 Dealing through Third Parties

The insider trading prohibition extends to dealings by individuals through nominees, agents or other associates, such as family members, family trusts and family companies (referred to as "Associates" in these guidelines).

3.4 Information However Obtained

It does not matter how or where the person obtains the information – it does not have to be obtained from the Company to constitute inside information.

3.5 Employee Share Schemes

The prohibition does not apply to acquisitions of shares or options by employees made under employee share or option schemes, nor does it apply to the acquisition of shares as a result of the exercise of options under an employee option scheme. However, the prohibition does apply to the sale of shares acquired under an employee share scheme and also to the sale of shares acquired following the exercise of an option granted under an employee option scheme.

4. Guidelines for Trading in the Company's Securities

4.1 General Rule

Key Management Personnel must not, except in exceptional circumstances deal in securities of the Company during the following periods:

- (a) Two weeks prior to, and 24 hours after the release of the Company's Annual Financial Report;
- (b) Two weeks prior to, and 24 hours after the release of the Half-Year Financial Report of the Company; and
- (c) One week prior to, and 24 hours after the release of the Company's quarterly reports, (together the **Closed Periods**).

The Company may at its discretion vary this rule in relation to a particular Closed Period by general announcement to all Key Management Personnel either before or during the Closed Periods. However, if Key Management Personnel is in possession of price sensitive information which is not generally available to the market, then he or she must not deal in the Company's securities at **any** time.

4.2 No Short-term Trading in the Company's Securities

Key Management Personnel should never engage in short-term trading of the Company's securities except for the exercise of options where the shares will be sold shortly thereafter.

4.3 Securities in Other Companies

Buying and selling securities of other companies with which the Company may be dealing is prohibited where an individual possesses information which is not generally available to the market and is 'price sensitive'. For example, where an individual is aware that the Company is about to sign a major agreement with another company, they should not buy securities in either Company.

CORPORATE GOVERNANCE PLAN

4.4 Exceptions

(a) Key Management Personnel may at any time:

- (i) Acquire ordinary shares in the Company by conversion of securities giving a right of conversion to ordinary shares;
- (ii) Acquire Company securities under a bonus issue made to all holders of securities of the same class;
- (iii) Acquire Company securities under a dividend reinvestment, or top-up plan that is available to all holders or securities of the same class;
- (iv) Acquire, or agree to acquire, or exercise options under a Company share, option or performance rights plan;
- (v) Withdraw ordinary shares in the Company held on behalf of the Key Management Personnel in an employee share scheme where the withdrawal is permitted by the rules of that scheme;
- (vi) Acquire ordinary shares in the Company as a result of the exercise of options held under an employee option scheme or performance rights scheme;
- (vii) Transfer securities of the Company already held into a superannuation fund or other saving scheme in which the restricted person is a beneficiary;
- (viii) Make an investment in, or trade in units of, a fund or other scheme (other than a scheme only investing in the securities of the Company) where the assets of the fund or other scheme are invested at the discretion of a third party;
- (ix) Where a restricted person is a trustee, trade in the securities of the Company by that trust, provided the restricted person is not a beneficiary of the trust and any decision to trade during a prohibited period is taken by the other trustees or by the investment managers independently of the restricted person;
- (x) Undertake to accept, or accept, a takeover offer;
- (xi) Trade under an offer or invitation made to all or most of the security holders, such as a rights issue, a security purchase plan, a dividend or distribution reinvestment plan and an equal access buy-back, where the plan that determines the timing and structure of the offer has been approved by the Board. This includes decisions relating to whether or not to take up the entitlements and the sale of entitlements required to provide for the take up of the balance of entitlements under a renounceable pro rata issue;
- (xii) Dispose of securities of the Company resulting from a secured lender exercising their rights, for example, under a margin lending arrangement;
- (xiii) Exercise (but not sell securities following exercise) an option or a right under an employee incentive scheme, or convert a convertible security, where the final date for the exercise of the option or right, or the conversion of the security, falls during a prohibited period or the Company has had a number of consecutive prohibited periods and the restricted person could not reasonably have been expected to exercise it at a time when free to do so; or
- (xiv) Trade under a non-discretionary trading plan for which prior written clearance has been provided in accordance with procedures set out in this policy.

- (b) In respect of any share or option schemes adopted by the Company, it should be noted that it is not permissible to provide the exercise price of options by selling the shares acquired on the exercise of these options unless the sale of those shares occurs outside the periods specified in paragraph 4.1. Were this to occur at a time when the person possessed inside information, then the sale of Company securities would be a breach of insider trading laws, even though the person's decision to sell was not influenced by the inside information that the person possessed and the person may not have made a profit on the sale. Where Company securities are provided to a lender as security by way of mortgage or charge, a sale that occurs under that mortgage or charge as a consequence of default would not breach insider trading laws.

CORPORATE GOVERNANCE PLAN

These discussions need to be documented in the form of a file note, to be retained by the Company Secretary.

The Company has made arrangements with each Director to ensure that the Director promptly discloses to the Company Secretary all the information required by the ASX.

7. Effect of Compliance with this Policy
